-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 3, 6 and 7 recite the limitation "at least one of step portions" in the last paragraph of the claims. There is insufficient antecedent basis for this limitation in the claim. Because claims 2, 4, and 5 depend on claims 1 and 3 respectively the same deficiency exists.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by JP-11-27339 hereinafter Anzai.

Anzai teaches a non-aqueous electrolyte secondary battery having a spiral electrode group formed by winding positive and negative electrodes having a separator interposed between and a battery case for housing said electrode group. Anzai also

Art Unit: 1745

teaches that the positive electrode includes a current collector and positive electrode material which when wound would be on both sides of the current collector and the negative electrode includes a current collector and negative electrode material which when wound would be on both sides of the current collector and tabs would be respectively connected to the current collectors. Anzai further teaches the necessity for the use of an ionic insulator arranged at an innermost or outermost circumferential side at the end (or step as applicants define in their specification) of the positive electrode and is adhered to a position opposing the end (abstract, paragraphs [0016]-[0021] and [0026]-[0038]). It is also quite clear to the Examiner that due to the winding of the current collectors that certain portions of the current collector will be contacted on both sides of the current collector and other portions will only have contact to one side of the current collector therefore as recited in claims 2 and 4 the Anzai reference also reads on said limitations.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Hodge whose telephone number is (571) 272-2097. The examiner can normally be reached on 8:00am - 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
